## NEWARK MEN INTERESTED IN THE ORGANIZATION OF A \$500,000 CORPORATION

### Consolidation of Six Large Ohio Coal Mines Effected Today

#### OVER 1,000 MEN WILL BE ON THE PAY ROLLS

**W. N. Fulton, President of New Concern, and Wayne Collier, Manager—Second Largest Coal Company in the State—Will Open Offices in Columbus Immediately—To Apply for \$500,000 Incorporation.**

A deal by which the Pan American Coal company, owned principally by Newark men, takes over the properties of five large coal mines in Ohio and West Virginia became public Tuesday when announcement was made by Wayne Collier, manager of the Pan American of the transfer of the other properties to his concern. Following the acquisition of these properties, the Pan American company will apply to the secretary of state for a new charter, increasing its capitalization to \$500,000.

W. N. Fulton, ex-President of the Licking County Bank and Trust Co., has been elected president of the new company and Mr. Collier will act as general manager of the operating department. After June 1 Mr. Collier's offices will be in Columbus.

The properties acquired are the Sedalia mine at Jacksonsville, Athens county, employing 150 men, the Clark mine at Ava, Guernsey county, employing 100 men, the Granger mine, known as the "Red Tiptoe," at Buckeye, two miles south of Zanesville, employing 100 men, the Gibbs mine at Shawnee, Perry county, employing 50 men, the Pocahontas mine at English, W. Va., employing 65 men, and the Henrietta Coal and Coke company's properties at Bartley, W. Va., employing 200. The Pan American company which has operated the mine at Cannelsville, Muskingum county, employs 165 men. With the new organization and increased activities, it is probable that more than 1000 men will be on the pay rolls in a short time.

The deal was closed about May 1 by Mr. Collier who, with Mr. Fulton, has been working on the consolidation proposition for several weeks.

Interested with them in the Pan American company which took over the other properties are L. P. Schanze of Mt. Vernon, formerly of Newark, and John Miller B. & O. conductor of North Fourth street, this city.

In the new company William H. Warner of Cleveland, John H. Walker of Pittsburgh and H. L. Warner of Columbus, will be associated with the Newark men.

## Fire Horse Bleeds At Nose And Mouth Following Hard Run

In another column of today's Advocate is found a story relating to the serious need of a motor truck in the place of the horse drawn ladder truck at headquarters. Emphasis was added to the statements made in this story, even while it was being written.

A fire call from Granville and Broad streets, almost two miles from the Central office, almost resulted in the death of one of the horses used on the ladder truck. Though the driver used every precaution in using the team to its best efforts, one horse bled so badly from the mouth and nostrils that its breast and legs were red with its own blood. The harness and wagon pole were saturated with the blood.

Granville street residents who saw the spectacle were loud in their condemnation of a city which abused its dumb servants in such a manner. The firemen whose duty it is to drive these horses are not to blame. Neither are the department heads. Frequent recommendations have been made to the safety director of the great need of either a new team or a motor-driven truck. Council has seen fit to deny this and the horses suffer while the property owners face the danger of heavy loss because the fire apparatus can not reach a blaze promptly.

Tuesday morning's fire was insignificant. Sparks from a pile of rubbish set fire to a pile of manure piled against a barn owned by Peter Myers of 270 Broad street. The barn caught fire but was extinguished before the department's arrival.

A citizen who would drive his horse until it bled at the nose and mouth, no matter how urgent was the mission, would probably be prosecuted by the humane society. The great city of Newark, merely to save the price of a new team or a motor driven truck, is guilty of a greater cruelty by continuing to drive a horse which is physically unable to stand the work which it is called upon to do.

## Pres. Farrell on Stand In Hearing to Dissolve U. S. Steel Corporation

[Associated Press Telegram]  
New York, May 13.—James A. Farrell, president of the United States Steel corporation, resumed the witness stand today as a witness for the defense in the hearings of the government suit to dissolve the corporation. He pictured the corporation as an industrial benefactor. As an example, he said that were it not for the policy of the corporation, to do a general business regardless of conditions, the cotton crop of the United States this year could not be mar-

**Mrs. D'Oyley Carte, Who Made Gilbert and Sullivan Possible**

Every one of the mothers and fathers, the grandmothers and grandfathers of today, who enjoyed the Gilbert and Sullivan operas in their roguish might show his appreciation of them by sending a garland for the grave of Mrs. D'Oyley Carte, who has just died in London. Without her there might have been little of the great musical combination which entertained millions in the old world and the new.

One of those who knew the inside of theatrical matters in London in the days of Gilbert and Sullivan said on her death: "Heis was the genius that kept these men together and smoothed out the difficulties that arose from time to time."

She began as an actress with Charles Windham, but her stage career was short. She married D'Oyley Carte, and very soon built his business up far beyond what it was. She superintended the production of the Gilbert and Sullivan operas, and when they crossed to the United States she made trips here to see that they were properly staged. Later she arranged lecture tours for Archibald Forbes, Sir Henry M. Stanley, Matthew Arnold, Oscar Wilde, and many others. When she became prosperous she supported many old players and said little about it. On her husband's death, in 1901, he left her the whole business, then appraised at \$1,200,000.

## LICKING FRUIT CROP ALMOST TOTAL LOSS

Licking county's fruit crop is practically a total loss. Indications that frosts of Saturday and Sunday nights had not done great damage were the exception and likelihood of saving any but a very small proportion of the prospective crop is now regarded as impossible.

Farmers from various parts of the county express great disappointment with the results. The local strawberry crop was practically wiped out. Apples, peaches and even the more hardy fruit, much of which was just in blossom have been killed. This is particularly hard for fruit raisers this year because everything had indicated bumper crops in all fruit lines.

Wheat is not thought to have suffered quite so severely, but it has been damaged to quite an extent, according to reports from over the county. Just how far-reaching were the effects of the frost in other sections of the state has not been ascertained, but it is the belief of Licking county agriculturists that the damage was general throughout Central Ohio at least, while there are some reports of heavy losses in the Northern Ohio fruit belt.

## PLAN TO CHECK "JOY RIDING" IN GOVERNMENT CARS

[Associated Press Telegram]  
Washington, May 13.—"Joy riding" in government automobiles promises to become a thing of the past so far as the District of Columbia is concerned. The district commissioners today put into effect a plan which they believe eventually will check the evil.

Under the new system each one of the twenty-five new machines owned by the District will be carefully watched in reference to its cost of operation and maintenance. At the end of each quarter reports must be filed with the district auditor, giving a detailed account of each car's mileage, the amount of gasoline consumed, cost of tires, the extent of repairs and causes that made such repairs necessary. If it is found that the cost of maintaining one car is greater than that of the others explanations must be forthcoming.

[Associated Press Telegram]  
Washington, May 13.—Dr. Chas. P. Neill, United States commissioner of labor since 1905, and recently made commissioner of labor statistics in the new department of labor, resigned today to take a position outside the government service.

The first university in the German empire was at Prague, Bohemia, 1348.

## BAXTER ON TRIAL AT COLUMBUS

### Was Former Superintendent of State Banking Department

#### EMBEZZLEMENT CHARGE

**Being Prosecuted by County Prosecutor and Atty. Gen. Hogan—The Case Goes Over Until Tomorrow.**

[Associated Press Telegram]  
Columbus, O., May 13.—Alleging that the statement of the case as outlined to the jury by Prosecuting Attorney Turner does not constitute the crime of embezzlement, as charged in the indictment, attorneys for former state banking Superintendent Frank E. Baxter, in criminal court today asked common pleas Judge Kincaid to take the case from the jury and return a verdict of not guilty. Pending the arguments on the motion the court excused the jury, the impaneling of which had taken up most of the forenoon. Attorney Kent Hughes of Lima, counsel for the accused former state official presented argument in support of his motion, and the prosecutor and Attorney General Hogan argued resisting it.

The demand for the sudden termination of the case was based upon the contention that defalcation with loss to the owner of the funds, is necessary to complete the crime of embezzlement, and that, inasmuch as the funds alleged to have been used by Mr. Baxter's case were returned a few days later and with interest, no crime was committed.

"If the mere use of some one's else money constituted a charge of embezzlement we would all be more or less guilty," Mr. Hughes urged. "It would make a criminal of every person who handles another's funds and who places them with his own awaiting a time until a settlement can be made. We claim that a defalcation must be committed with the intention of defrauding the owner before embezzlement can be charged."

In his statement to the jury, Prosecuting Attorney Turner briefly outlined the sentence which he said had resulted in a grand jury indictment being returned against the former head of the banking department.

The state expected to show, the (Continued on Page 10, Col. 3.)

## TRACTION MEN HAVE REFUSED TO ARBITRATE

[Associated Press Telegram]  
Cincinnati, May 13.—The new union of Cincinnati street car employees today refused to arbitrate with the Cincinnati Traction company under the conditions offered by the latter and decided to continue the strike. Recognition of the union by arbitration is insisted upon by the union men.

The traction company, which has not been able to operate any of its cars since Saturday afternoon, had offered to arbitrate with "the men," providing the employees resumed work pending the result of the arbitration. It even appointed its arbitrator, and the decision of the union men came as a decided shock not only to the company but to hundreds of thousands of people who have been walking to and from work since the strike was inaugurated.

The decision to refuse to arbitrate was reached after Mayor Henry T. Hunt, as well as several labor leaders had addressed the meeting of the union men. The mayor urged a return but his appeal was apparently in vain.

The traction company earlier in the day gave out a statement that in case the union refused to arbitrate, it would once more attempt to operate its cars and more trouble is feared.

After rejecting the traction company's proposal the union men drew up a letter outlining their attitude which they sent to Mayor Hunt, who, in turn, forwarded it to the officials of the street car company.

## CHARGE MESSENGER ABSCONDED WITH BANK'S CURRENCY

[Associated Press Telegram]  
Pittsburg, Pa., May 13.—Harry Thomas McLaughlin, 21, a former express messenger who is charged with having absconded, it is alleged, with between \$10,000 and \$12,000 gold and silver certificate currency, is being sought by local police and a detective agency. He is said to have received for several packages of

## Turn Tables and Start Probe Against Accuser Of State Hospital Supt.

[Associated Press Telegram]  
Dayton, May 13.—"Do anything to keep him quiet. Beat him, just so you don't break his bones. Keep him from talking and if necessary paste his mouth shut. What we ought to have is a hose to squirt water in his mouth until he can hardly get his breath. If he persists in talking, tie his mouth shut, or do anything. But keep him quiet."

According to testimony given to members of the state board of administration, who are investigating the charges and counter charges made against officials of the Dayton state hospital, this was the order given to three attendants by Dr. J. V. Koch, former assistant superintendent, regarding a patient named Carl Murray. Attendants Albert, McIntosh and Kopke, the witnesses, declared they had made the same statement to Dr. E. A. Baber, superintendent, before Dr. Koch was discharged from the hospital about the first of April. The attendants further testified that they had "restrained" the patient referred to, but that they had not mistreated him.

George H. Burbage and Henry Ward Swisher, other attendants, testified that an Italian refugee, Tony Mantelle, who had been brought to the institution insane, had been left in possession of a milk bottle with which they feared he might try to commit suicide. When they confided their fears to Dr. Koch, they testified that he remarked, "well never mind. That would mean just one less dog."

At the opening of the afternoon session, the board took up the charges against Dr. Baber as preferred by Dr. Koch. Dr. Shepherd, president of the board, stated that the investigation will be concluded late today, or possibly this evening. Action will not then be taken by the board for several weeks.

Members of the board will not go to Cincinnati tonight, as had been planned, but will inspect Longview hospital some time next week, with a view to the taking over of that institution by the state.

[Associated Press Telegram]  
Dayton, May 13.—Instead of investigating charges of misconduct in office and negligence filed against Dr. E. A. Baber, superintendent of the Dayton state hospital, by the former assistant superintendent, Dr. J. V. Koch, members of the state board of administration today turned a surprise by ordering the charges against Dr. Koch brought by attendants, first be heard.

President T. E. Davey of the state board developed the fact that the attendants had signed a petition asking for the dismissal of Dr. Koch and had later filed a series of serious charges against him resulting in his dismissal from the institution about April first of this year. Following his discharge, Dr. Koch then brought charges against Superintendent Baber. Attorney Conrad J. Mattern, represented Dr. Koch as attorney and stated that Dr. Koch's charges were not brought in a spirit of revenge and that Dr. Koch does not wish to re-enter the services of the state.

"According to conflicting testimony at present in the hands of the board, Dr. Koch either should have been discharged long before he was or many of the attendants should now be discharged," declared President Davey.

Attorney Frank W. Reeves was the first witness called by the state in the hearing of charges against Dr. Koch. He testified Dr. Koch had sworn at a sick patient and had declared that the hospital probably would be better off (Continued on Page 10, Col. 4.)

## Three Killed Fighting Fire Resulting From A Bolt of Lightning

[Associated Press Telegram]  
Stratford, Ont., May 13.—The tall spire of the Knox Presbyterian church, 160 feet above the curb was struck by lightning early today and in the ensuing fire the chief of police, the fire chief and a policeman were killed, and a fireman was mortally injured. The three men who lost their lives were buried beneath the burning belfry, when it toppled and fell. The fireman was laid out with a blow on the head from a flying timber. The dead are: J. A. McCarthy, chief of police. Hugh Durkin, fire chief. Matthew Hamilton, policeman. The injured man is Sidney Van Stone.

The steeple, visible over a great money at Belle Vernon and Charleoni, Pa., on last Tuesday.

When he reached this city he made his usual report, and it is alleged, disappeared. The banks to whom the money was consigned have not been able to check up the entire amount and the exact shortage cannot be accurately stated.

## K. OF C. ANNUAL CONVENTION BEING HELD AT TOLEDO

[Associated Press Telegram]  
Toledo, O., May 13.—Delegates to the annual Ohio state convention of Knights of Columbus assembled here today. There are about 160 delegates present. P. J. McCarthy, of Cleveland, state deputy, called the session to order. The convention will close with the election of officers this evening.

## TARIFF FIGHT IS RESUMED

### Republicans in Senate Would Refer Bill to Finance Committee

#### WANT PUBLIC HEARINGS

**Democratic Members Ready to Check Penrose Amendment, Which Some Republican Members Will Not Support.**

[Associated Press Telegram]  
Washington, May 13.—The tariff fight was resumed today in the senate on the motion of Senator Penrose to refer the Underwood bill to the finance committee with instructions for public hearings.

Chairman Simmons, of the finance committee, was busy early in the day urging all Democratic members to be on hand in case the question should come to a vote and he felt confident that the Republicans first move against the majority would be checked.

Some Republicans who have declared that they would not support the Penrose amendment argue that hearings on a tariff for revenue bill would avail nothing and that were the bill written from a protective standpoint, they would favor the bill.

Senator Penrose and other Republican senators planned to talk on the amendment at length when the senate convened and it looked as though it might be some days before a vote was reached.

President Wilson has taken the position that he ought not commit himself in any way with respect to numerous minor amendments to the tariff bill being suggested by Democrats.

Secretary Redfield had a half hour's talk with the president before the cabinet meeting today, and declared he believed unimportant changes would be made but that if the president consented to certain ones, he would be besieged for requests to open other schedules.

Secretary Redfield said that since it had become known that an inquiry was to be made by the bureau of domestic and foreign commerce into wages and industrial conditions in connection with the tariff bill, some requests had come from manufacturers themselves inviting such an investigation. These Mr. Redfield declared were based however, more on the belief that the inquiry would be the basis for tariff rates than an examination as to the effect of the bill after it had become a law.

## BIG LOSSES OF FRUIT ALL OVER STATE

[Associated Press Telegram]  
Columbus, O., May 13.—The heavy frosts of Saturday and Sunday night caused big losses to the fruit in all parts of the state, according to reports received by N. E. Shaw, state nursery and orchard inspector. The damage was particularly serious in Central Ohio. Fruit of all kinds is reported to be totally destroyed in the lowlands of Southern Ohio.

From 40 to 80 percent of the apple crop in Northern Ohio is reported killed, but because of the unusually heavy bloom, Inspector Shaw is of the opinion that there will still be a good apple crop. Peaches are but slightly injured along Lake Erie, which is the big peach belt. Late blooming varieties of strawberries are unhurt.

Heavy fruit growers near Delaware and Newark protected their orchards by burning oil, thus raising the temperature above freezing.

## Suffragette Leader is In State of Collapse and Trial Postponed

[Associated Press Telegram]  
London, May 13.—"General" Mrs. Flora Drummond, the militant suffragette leader is in a state of collapse and was unable to appear at the resumed hearing at Bow street police court today, of the charge of conspiracy under the malicious damage to property act which has been brought against her. A doctor testified in court that owing to her illness she had been moved to a nursing home. He said it would take two weeks for her to get into a fit condition to undergo an operation, which was necessary and another two months before she would be able to be tried.

The other "conspirators" who comprised Miss Harriet Rebecca Kerr, Miss Agnes Lake, Miss Rachel Barrett, Mrs. Beatrice Saunders, Miss Annie Kenney, Miss Laura Lennox, and the analytic chemist, Clayton, all surrendered to their bail.

## BE HEALTHY, HAPPY, VIGOROUS

**Trembling, Nervous Prostration and That Tired Feeling Vanish After a Treatment of Ambition Pills.**

Every run down, weakened, tired out, nervous person in Newark is invited to go to Evans' Drug Store this very day and get a box of WENDELL'S AMBITION PILLS with the distinct understanding that money will be returned if dissatisfied. Over indulgence in alcohol or tobacco, over-eating or excesses of any kind mean unstrung nerves. Don't delay. WENDELL'S AMBITION PILLS have only recently been offered to the public, but thousands have regained vigor, ambition and energy by the use of one box.

Get busy and take them for any nervous trouble, weakness, headaches, hysteria, neuritis, exhausted vitality, sleeplessness, kidney, liver or stomach ailments, and for constipation. They will make anyone feel fine, happy and vigorous in a few days.

## K. OF C. BOYS HAVE BALL TEAM

The local Knights of Columbus Sunday organized a baseball team and the first practice was held under the careful tutelage of "Uncle" Joe Cannon of the Public Service office. Cannon does not claim to know much baseball but he makes up in "zip" and enthusiasm what he lacks in knowledge of the great national game. George Piers is captain of the team, while the management has been placed in the hands of John Wellman. The team is getting an early start and within a short time will be in good shape to back games with out-of-town teams representing other K. of C. lodges.

## STAHL RECOVERING FROM OPERATION

[Associated Press Telegram] Boston, Mass., May 13.—Jake Stahl, manager of the Boston American baseball team, is recovering rapidly from an operation performed upon one of his feet last week. Physicians said today that he will probably be able to join the Red Sox team in Chicago the last of this week. It had been feared that Stahl would be obliged to remain in Boston a month.

## JNO. McCARTY SENT TO TROY BY INDIANAPOLIS

Indianapolis, Ind., May 13.—Manager Kelley of the Indianapolis American Association team, has sent forty Ingerson, utility infielder, to the Louisville club. It is reported that Louisville gave up \$2000 for Ingerson, who was one of the heaviest hitters in the association last year. Kelley released Johnny McCarty of Newark, N. J., first baseman, to the Troy (N. Y.) team.

## JURY GIVES PLAYER A \$5000 VERDICT

St. Louis, May 13.—The St. Louis American League baseball club must pay Jack O'Connor \$5000, the amount he would have received in salary had he not been discharged as a manager prior to the opening of the 1914 season, a jury in the circuit court decided last night. The trial, which had occupied the court all day, came to a close with unexpected suddenness. The jurors were out only 20 minutes.

## MICHIGAN PLAYER BROKE LEG SLIDING

Kalamazoo, Mich., May 13.—First Baseman Wessner of the Kalamazoo South Michigan baseball team broke his left leg yesterday while sliding into the home plate.

## NAP MANAGER BREAKS A LEG: LAJOIE IS OUT

Cleveland, May 13.—In sliding into second base in the ninth inning of yesterday's game with New York, Manager Joe Eversham broke a bone in the instep and fractured the lower end of the tibia of his right leg. It was diagnosed by an examination last night. The injuries may keep him out of his position on or off the field for a month, it is thought.

As he slid to second, his toe caught in the dirt and bent backward, causing a fracture of the bone. He slipped from the field, putting a runner on the base in his place.

With St. and Eversham, Lajoie also out of the game with a broken bone in each hand, the regular lineup will be a bit rearranged, and those two players will be badly missed.

With tough to break one's leg trying to win the game and then not win, "AH!" said Manager Eversham last night. "Conrad Lajoie may take Eversham's place in center field while the manager directs his team from the bench."

## Best Medicine for Colds.

When a druggist recommends a remedy for colds, throat and lung troubles, you can feel sure that he knows what he is talking about. C. Lower, druggist of Marion, Ohio, writes of Dr. King's New Discovery: "I know Dr. King's New Discovery is the best throat and lung medicine I sell. It cured my wife of a severe bronchial cold after all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung trouble. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price 50c and \$1.00. Guaranteed by F. D. Hall.

## KNOX COUNTY MAY HAVE ROSE LAW ELECTION

Mr. Vernon, May 13.—Rumors of a proposed Rose law election have been heard lately for several days. Attorney Hugh Neal is said to have drawn up the petitions. He stated yesterday that he had secured the form of the petitions at the request of a client, but that as far as he knew there was no organization formed as yet to cause the petitions to be circulated. Mr. Vernon has been "dry" under the Rose law for four or five years.

## ESTABLISH THE FIRST NEWSPAPER IN ANTARCTIC

[Associated Press Telegram] Melbourne, May 13.—Dr. Douglas Mawson, the Australian explorer and six members of his expedition to the South polar regions who have been forced to spend the winter on Deland island, sends a wireless announcement of the establishment of the "Blizzard," the first newspaper to be regularly printed in the Antarctic. It promises its readers all the news of the South polar regions once a month and starts out with a twenty-six page number. The circulation is at present limited, however, to the members of the staff, the only human beings on the barren tract. The members of the party are all reported well although almost snowed up in their huts.

Frank Chance seems to be in the same peck of trouble that all the other managers of the New York Americans have had to contend with. This team, sooner or later, has broken every manager that has handled it. The jinx that follows them is already at work. Most of the pitchers have sore arms and the infield is none too strong. Chance himself has been out with a bad knee. The New York fans still have great confidence in the Peerless Leader and fully expect him to develop a winner.

J. W. Frazier of the Licking Laundry, made a business trip to Zanesville today.

## FIRE DEPARTMENT WILL ASK COUNCIL FOR MOTOR TRUCK

The Newark fire department, right now is facing a dilemma which the city council may be called upon to help in deciding upon the best way out of the difficulty. The team which is used on the ladder truck at headquarters is all but useless. On long runs, the horses are practically put out of commission for some time afterwards. Sunday in responding to the alarm from the plant of the American Bottle company though the driver was instructed to favor the horses, they reached the fire unable to move more than a few feet. One of the horses was so fatigued that it almost fell several times during the trip.

The purchase of a new team will mean an outlay of \$100 or \$200 without giving much better service. The horses of course will be fresh, but a few years of the work on the truck at headquarters will put them in the same condition as the team which is now causing the trouble.

The best solution of the problem is the purchase of a motor truck at an expenditure of not more than \$7,000. Such a truck would place the department in good shape to combat with the many fires it is called upon to fight.

The ladder truck must respond to every alarm received at headquarters. Its chief mission is a means of conveyance for a half dozen firemen, whose services may be needed at the blaze. At 90 per cent of the fires, none of the ladders or other equipment on the truck is needed but the truck must respond to the alarm to get the men on the scene.

Following a run like the one Sunday to the American Bottle company plant, the horses are in poor shape for a day to make another long run. With a motor-driven truck such a difficulty would not arise. The truck would really be in better shape to make another long trip than if it had been standing for an indefinite period unused.

Newark must soon face the proposition of equipping the entire department with motor-driven vehicles and this should be done as the horses used on the various trucks give out from over work.

Join the "more than a million" men and boys who enjoy Chalmers "Porosknit" Summer Underwear. You'll find it more comfortable than any other underwear you've ever worn. "Porosknit" Union Suits are advanced comfort. For instance, ordinarily a union suit isn't elastic in the direction of the pull from crotch to shoulder; so, when you bend, it "cuts" in the crotch. Not so in "Porosknit." This fabric is made so the elasticity in the back of the Union Suit acts up-and-down, too. You may twist and bend as you wish, even in a snug suit, and it "gives" easily so it can't bind nor "cut." It fits so you feel good all over.

Chalmers "Porosknit" is light, cool, absorbent, durable. Go to any store that displays the Chalmers "Porosknit" Summer Underwear. Buy it and be comfortable.

# "BREATH TEST" IS LATEST FOR RAILROAD MEN

**Train Crews Must Be Total Abstemious in Interest of Safety.**

Railroad men on the great Pennsylvania system have been brought face to face with a new efficiency test. It has been called the "breath test."

Life and property will be safer in hands of total abstainers is the expressed belief of competent railroad authority. A Baltimore special to the Cleveland Plain Dealer says:

"By a new rule which has just come into effect the company will require all train crews to submit before they take out their train to a breath smelling test to determine whether the men have been drinking. What the censor says goes. If it smells like liquor to him it makes no difference if you have been taking bitters for a weak heart or been patronizing the product of the breweries to increase your weight. Says the temperance ultimatum 'anyone having the odor of liquor on his breath will be suspended or discharged.'"

Business houses and corporations everywhere are awakening to the importance of cutting away from drinking employees. No man can load up with liquor and keep a clear brain. The "occasional drinker" simply of-

# WHEELING MAN GETS THEATRES IN INDIANA

Muncie, Ind., May 12.—Negotiations were closed today by Edward L. Moore by which three important Indiana theaters were added to the Moore circuit and booking arrangements have been made with a dozen or more theaters in other cities. The Lennett theater at Richmond, Grand theater at Anderson and Kramer Grand at Elwood, have been added to the Moore circuit. This gives the Wheeling concern four of the best theaters in Indiana, it having for the past three years controlled the Wysox Grand in this city. Negotiations are pending for the lease or purchase of the theaters in five or six other important Indiana towns.

Mr. Moore is the lessee of the Auditorium in this city, his contract with the trustees of the Licking County Soldiers and Sailors Memorial building not expiring until 1914.

Mr. Fred Johnson, Mr. Moore's local representative, states that a number of important changes will be made by the Moore syndicate for the coming season and while he does not care to state just what will be done locally regarding theatricals, the operation of the Auditorium for the coming season will be on a different plan than heretofore. Mr. Moore catering only for the standard attractions, probably an average of one per week.

There will also be a change of management. Mr. Johnson leaving for Muncie later in the season, where he will look after the Moore interests.

**LEGACY TO GREEK KING.**  
His Murdered Father Bequeaths Love For Mother and Country.  
Athens.—In his political will, which has now been made public, the late King George, after giving directions for the disposition of his belongings, urges his children to remain united. Addressing himself to the new king, Constantine, King George says: "Love your dear little country. Serve her and your dear people and have confidence in them, and may your brothers follow the same example." The will urges King Constantine to be courageous and patient, "for you are reigning over a southern people whose temper and irritability take fire rapidly and who at any moment may say and do things which it is probable will be forgotten the following day. It is preferable that the king should suffer, even morally, rather than his people and his country. The interests of the people of the country must always be placed before all other interests." In conclusion King George declares his love for Queen Olga and urges his son to love and protect her.

# ARE YOU SUBJECT TO CONSTIPATION

Here is a Simple Way of Correcting It Instantly Before It Becomes Chronic.

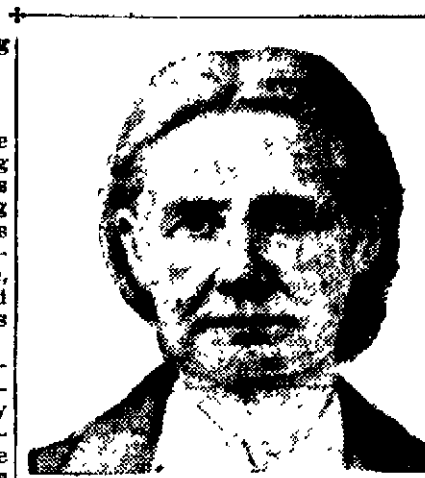

Very few people go through life without some time or other being troubled with constipation. Thousands injure themselves by the use of strong cathartics, salt mineral waters, pills and similar things. They have temporary value in some cases, it is true, but the good effect is soon lost, and the more one takes of them the less effective they become.

A physic or purgative is seldom necessary, and much better and more permanent results can be obtained by using a scientific remedy like Dr. Caldwell's Syrup Pepsin. It does not hide behind a high-sounding name, but is what it is represented to be, a mild laxative medicine. It is so mild that thousands of mothers give it to tiny infants, and yet it is so compound and contains such definite ingredients that it will have equally good effect when used by a person suffering from the worst chronic constipation. In fact, among the greatest endorers of Syrup Pepsin are elderly people who have suffered for years and found nothing to benefit them until they took Syrup Pepsin.

It is a fact that millions of families have Syrup Pepsin constantly in the house, homes like those of Mrs. G. B. Pruitt, Here, Ky., who used Dr. Caldwell's Syrup Pepsin as a laxative tonic. Mrs. Pruitt writes that it so strengthened and cleansed her system that she was quickly relieved of a severe cough which had troubled her for months. The special value of this grand laxative tonic is that it is suited to the needs of every member of the family. It is pleasant-tasting, mild and non-gripping. Unlike harsh physics it works gradually and in a very brief time the stomach and bowel muscles are trained to do their work naturally again, when all medicines can be dispensed with.

You can obtain a bottle of any drug store for fifty cents or one dollar. The latter size is usually bought by families who already know its value. Results are always guaranteed or money will be refunded.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

# JUDGE BARHORST DOES HIS DUTY TO RHEUMATIC SUFFERERS

If you suffer from Rheumatism and don't read this advice, then the terrible disease must have robbed you of your power to be fair to yourself. Read it:

"I, John Barhorst, Justice of the Peace of McLean township, Ft. Loraine, Ohio, do certify that after treatment by three doctors without result, I have been cured of a very bad case of Rheumatism by using two bottles of RHEUMA. It is now two years since I used this remedy, and I am still as well as ever. Previous to using RHEUMA I was a cripple, walking with crutches, and I feel it my duty to let other sufferers know what it will do. The result seems almost miraculous to me. I have advised RHEUMA to at least a dozen persons, and each one speaks as highly of it as I. I will answer any one suffering from the disease if a two-cent stamp is enclosed."—May 31, 1912.

You can secure a bottle of RHEUMA for only 50 cents at Evans' Drug Store and they say if not as advertised money back. It's just as good for gout, Arthritis, Lumbago and Sciatica.

# POLO PONIES ARRIVE FROM OLD ENGLAND

[Associated Press Telegram]  
New York, May 12.—Forty-four polo ponies, the best that British gold could buy, were unloaded from the steamship Minneapolis today and sent to the stables of the Pipping Rock Country club on Long Island, in readiness for the International polo matches in June. The ponies entrained under \$75,000 bond, are valued at \$100,000 and no human travelers had better care during the voyage from England. Thirty red sweated groins attended them. They were fed select hay and English oats and enough of this was brought along to last them during their stay.

Twenty-four of the ponies belong to the Duke of Westminster of the British army, who will ride in the international match at Meadowbrook, and who is due this week on the Oceanic.

# COURT NEWS

## Probate Court Records.

Elmer Jones was arraigned before Judge Hunter Tuesday and entered a plea of guilty to committing an assault upon Joshua Hull. A fine of \$5 and costs was administered by the court.

The will of Rhoda S. Hoskins, late of Lima township, was admitted to probate Tuesday.

The will of Aletha Woods, late of Washington township, was admitted to probate Tuesday, and W. S. Houser of Utica was appointed executor.

Judge Hunter on Tuesday announced a finding of guilty against Milton Neldon, charged with uttering slanderous statements against Mary L. Williams of Granville. The case was tried Monday. Edward Kibler, Jr., was counsel for the prosecution.

Jimi Marcello, or Margillo, charged with pointing firearms, entered a plea of guilty in probate court. Passing of sentence was deferred pending the hearing of further testimony.

## Temporary Injunction.

An order of temporary injunction was issued by the court of common pleas, Tuesday, on a petition filed by Frank Wilson against Elizabeth Belford and Charles Robinson, charging them with interfering with excavating proceeding under his direction in Granville. The defendants contended his excavating was damaging their property.

## Won Supreme Court Case.

Attorneys Flory & Flory were victors in the supreme court of Ohio, Tuesday, when decision was announced affirming the circuit court in the case of William H. Mead, Jr. vs. Jane Brown, et al. The decision was in favor of the defendants, and affirms every court the case has passed through.

The action was originally a suit for \$83 which Mead, an insurance agent, alleged was due on premiums he personally advanced to his company for insurance on property of Jane Brown and her sons, Brown brothers, South Second street feed men. The defendants disputed the contract. The action was begun in the justice's court and has been favorable to the defendants in each court as it was successively appealed.

The case is one of several of similar character instituted by Mead, says attorneys interested.

## A TRUE LEADER OF MEN.

(New York World.)

If Representative Oscar W.

Underwood had done no more

than write the report of the com-

mittee on ways and means ac-

companying the new tariff bill his

fame would be secure. As a

veritable classic of American

economy, that document ranks

with Hamilton's report on manu-

factures, with Gallatin's report

on the tariff, with the speeches of

Silas Wright and Henry Clay on

the same subject and with Robert

J. Walker's famous report as

Secretary of the Treasury. In

these various papers the student

will always find the best thought

of two antagonistic schools,

brought down to date.

But Chairman Underwood has

done more than that. As leader

of the house of representatives, as

debater, as parliamentarian and

as manager of men, he has had

few equals and no superiors in

congress. He had an unwieldy

majority to begin with. In spite

of its principles, his party during

the long period of Republican as-

cendancy had in many of its ele-

ments developed as un-Democrat-

ic fondness for privileges. There

were personal and sectional inter-

ests to consider. Yet under his

guidance the house with unanim-

ity has passed a tariff bill honest

and scientific in its scope, in

keeping with pre-election prom-

ises, just in its treatment of the

great interests involved and un-

questionably a corrective of the

wrong against which the people

have so long complained.

No one will deny that Mr. Un-

derwood owes much to the con-

gressional pioneers of this re-

form. Randall, Morrison, Mills,

Springer and William L. Wilson

were very great men in some re-

spects. Each had distinction of

mind, character or manner. Each

excelled in his own particular

way. The Republic as well as the

Democratic party is to be con-

gratulated upon the fact that in

Chairman Underwood have been

happily combined their sagacity,

their caution, their determination

their reason, their courtesy and

their honor.

## Little Benny's Notebook

The Invincibles, me being kaptin, is tired as the dooce, and I sed, Go played the Park Wonders again yest'day, being a existin' awh awh awh, with them playin' is good the skore was a tye at the end of every innin', proving wat a close gain it was, and I started to get dark' and dark' and the Park Wonders kept awn gettin' just as many runs as the Invincibles, did, but we didnt want to stop playin' wile the skore was a tye, awn akount of a tye not proving anything.

G wizz, sed Sid Hunt, my arm is gettin' tired. Which I asee it was, Sid Hunt bein' our pitcher and the skore bein' 12 to 12 fayer nolloddy in the 16th innin'.

Go awn, Sid, I sed, pitch sum kerves and strike them out. Me bein' kaptin and sipplid to tell the fellos wat to do.

So Sid Hunt pitched sum kerves and struck the Park Wonders out, only made 10 moar runs befor they struck out, making the skore 22 to 12 fayer the Park Wonders. Then it was our turn to bat, and I sed, Kim awn now, fellos, awl we haff to do is make moar than 10 runs this innin' and we win the gain. And we staid to bat but we jess maid iavely 16 runs without eny ovr, making the skore 22 to 32 fayer noboddy in the 17th innin' and it staid to get so dark we cood jess see the bawl good enuff to hit it but hardly good enuff to find it aftr it was hit, and Sid Hunt sed, G wizz, I aint going to pitch eny moar, my arm

The Woodman Cut the Trees Down.

## Daddy's Bedtime Story—

The Hill That Became Level.

JACK and Evelyn were waiting at daddy's elbow. "It's time for us to have our story," they said. And so daddy began: "Once on a time there was a handsome big hill. The hill was very, very proud of itself and used to look down on everybody else."

"It said to the tall trees which grew on its sides: 'You should be very glad that I allow you to grow here and draw your food out of my soil. You would die if it were not for me.'"

"The trees whispered to the woodman, and the woodman came and cut them down and sent them away. Some became the masts of ships, and some were built into houses, while others were used in various other ways."

"And because the trees were gone the sun shone down fiercely on the head of the hill, and the little plants and the grasses that grew there complained. The hill answered: 'You should be very glad that I allow you to grow on my sides. You should learn to be more humble. Grass is only grass, but I am a hill!'"

"And by and by all the grass and all the plants died off, for the sun beat down on their heads so hotly that it scorched them, and the storms beat on them so heavily that they broke them down and the heavy rains washed them out by the roots."

"Then the hill stood out quite bare and uncovered. The sun burned it until its sides cracked and crumbled, and when the rain fell it washed the soil down grain by grain until the hill saw itself growing smaller and smaller, for the tall trees that had soaked up the rain and the little plants and the grasses that had held it together with their roots were gone."

"Then the hill began to be frightened. When it asked the trees and grasses and the plants to come back and grow on its sides they answered that they could not because all the soil had been washed away."

"The hill said, 'Well, when all this loose earth is gone and I stand out a mass of rock the rain can't hurt me.'"

"But the rain gathered in the hollows and cracks of the rocks. When winter came it would freeze there. When warm weather came the ice in the openings would swell in melting, and the rock would be broken and cracked. Then when the spring freshets came rushing down the hill's sides the water would pick up the broken pieces of rock and grind them one against the other until they were crushed to sand. Then the water washed the sand away."

"Summer and winter this went on until the hill was washed level and every one had forgotten that ever a hill stood there."

## Uncle Walt's Philosophy

LIFE ON THE FARM.

The golden dawn is breaking, the mules and cows are waking, and eke the antlered steers, "I'd give a million dollars," the "rowdy" hired man hollers, "to sleep for fifty years!" He rubs his eyes and crumbles as down the stairs he stumbles to do his morning chores; he's pretty nearly weeping, his thoughts are all of sleeping, and of estate shores. You do not hear him singing, his laughter isn't ringing, as he toils around the barn; not oft the hired man whistles; his feet are full of thistles, and all he says is "darn!" The long, long day's before him, a brazen sky is o'er him, and he is seeing red; and all the time he's thinking how sweet 'twould be a-sinking into a feather bed! He milks the old cow "Bossy," and makes the mules look glossy, and makes the horses shibe; and then, with weary talons, he packs five thousand gallons of hogwash to the swine. He gives the calves their toddy while they climb up his body and kick him on the shins; and thus, with chores unending, and sighs and groans ascending, the rural days begin. And ever as he totters around the barn and potters with horses, mules and steers, the hired man sadly hollers, "I'd give a million dollars to sleep for fifty years!"

### In Society

The Berean Bible class of the Second Presbyterian Sabbath school of which Mrs. Orr is teacher, planned and very successfully carried out a surprise on one of their members, Miss Alice Ball, in Hudson avenue. Sunday, May eleventh, being her birthday, they decided to celebrate the event on Saturday afternoon. After a fine social time at the home of Miss Ball eighteen members repaired to the First Presbyterian church, where all did justice to the good things provided there. The president of the class, Mrs. James Thomas, gave many reminiscences and experiences in her well rounded life, and each member added something to the feast of fun and good will of the afternoon. All wish Miss Ball many more happy birthday anniversaries.

Miss Anna Flanagan of West Main street entertained with a six o'clock dinner Sunday in honor of Mr. and Mrs. James O'Neil (Miss Anna Flanagan). At the large table where covers were placed for six, a color effect of green and white was carried out with lilies of the valley and ferns.

**STOUGH-BEASLEY.**  
Saturday afternoon Dr. Sparks united in wedlock Mr. Carl C. Stough and Miss Bernice May Beasley, both of this city. At the conclusion of the ceremony they left for their new home at Coshocton, where the best wishes of their friends follow them.

Mrs. Walter Trickey entertained Sunday with a 6 o'clock family dinner, honoring the birthday anniversary of Mrs. Frank N. Wright and Miss Marie Trickey. A feature of the dinner was the large birthday cake bearing thirty-nine lighted candles, representing the combined ages of the honor guests. Covers were laid for fifteen.

Announcements reading as follows have been received by friends:  
The Faculty of the Denison Conservatory of Music announces a Graduating Recital to be given by Dorothy Ruth Swartz Wednesday, May fourteenth 8 p. m. Recital Hall

The La Kudrilla Klub will meet on Wednesday afternoon with Mrs. Gladys Frush of Sixteenth street.

The Daughters of the American Revolution will hold their regular meeting in the auditorium of the High school Wednesday afternoon at 2 o'clock, at which time the prize essays on patriotic subjects, for which the High school students have been competing, will be read, and prizes awarded. The public is invited to attend.

The O. N. T. club will be entertained this evening, with Miss Genevieve Kennedy acting as hostess, at her home in North Fourth street.

### LEARN TO EAT

Then if Stomach Rebels You Need Mi-o-na.

One of the great characteristics of the American people is—too rapid eating. The inevitable result of bolting our food is indigestion with its various forms of stomach ills. Nothing makes life so miserable, or interferes so widely with the usefulness of the average American as dyspepsia, the result of indigestion. The quick lunch counters, many restaurants, and even some homes are veritable manufacturers of stomach troubles.

It seems useless to say "eat slowly," for our best physicians, and publications devoted to health, have been making the same cry for years, yet we don't heed their warnings.

Since we persist in defying nature, help must be given the digestive machinery, otherwise serious results will follow.

Mi-o-na Tablets are a specific for stomach ills. They not only attack the food in the stomach and assist in its digestion, but go farther, and tone up the entire digestive tract, restoring it to a healthy condition so that we can eat what we want at any time without distress.

Take Mi-o-na at the first sign of upset stomach, such as headache, dizziness, coated tongue, eructating of sour food, or nervousness. All the symptoms of stomach distress will promptly disappear, indicating that the digestive machinery is once more running smoothly.

Remember, Mi-o-na is always sold on money back if not satisfied plan. Evans' Drug Store and druggists everywhere. 50c for a large box.

### TEETH IDENTIFY SKELETON.

Dental Work Shows That Bones Belong to Lost Girl.

Albuquerque, N. M.—The finding of a woman's skeleton in lonely Los Huertas canyon, thirty miles from this city, explains the disappearance on Nov. 14, 1911, of Margaret Greb, twenty-two, daughter of John Greb, a carpenter, who afterward went insane over the loss of his daughter, while a brother contracted tuberculosis from exposure in the search and died.

The girl started out for a walk in the sand hills, lost her way when night fell, and, although the mountains and mesas were searched for a trace of her, none was found.

The skeleton, which was found stripped clean of flesh and clothing, was identified by a gold filling in the teeth.

### RADIO STATION FOR PANAMA.

Plans Are Completed For Towers Like Those In Use at Arlington.

Washington.—Rear Admiral Stanford, chief of the bureau of yards and docks, has just completed plans for the construction of the second set of great naval wireless towers, which will be erected on the canal zone at Camacho, practically duplicating the initial plant at Arlington reservation. There will be three 600 foot steel towers. With a 100 kilowatt radio set it is believed that this section should be able to communicate either directly or by relay with similar high power stations to be erected by the navy in the Hawaiian islands, Tutuila, Samoa, Guam and the Philippines.

#### One Way to Help the Woman's Movement

"I was somewhat surprised the other day," the clubwoman was saying, "to find that the business manager of the Family Magazine is a woman. I had to stop in at the office to see personally about a little matter, and in response to my request to see Mr. S. T. Lambert, a bright, alert, middle-aged woman came out. I supposed she was his secretary, or something of the sort, but she smilingly told me she was S. T. Lambert.—Sarah Theresa Lambert. After our business was over, I could not refrain from asking if she signed her name that way to give the impression she was a man."

"What did she say?" asked the other woman.

"She admitted she did," replied the clubwoman. "She said she went into business a good many years ago, when women in business were not so plentiful as they are now, and that she knew she would get better results in her work if people thought they were dealing with a man instead of with a woman."

"I guess she was right," said the listener. "Even today there are lots of people who will side-step a business managed by a woman."

"That's true," said the clubwoman. "But it always is a marvel to me why people will hang on to their traditions and prejudices, simply for the sake of hanging on. I am acquainted with a woman who has an important position on a big newspaper. It was necessary for her to see the editor of another large newspaper, and she wrote, making an appointment, and cannily signed only her initials. When the editor met her, he was quite amazed, and blurted out, 'I supposed you were a man.' She didn't say anything until she had finished her business, then she asked smilingly, 'You wouldn't have met me if you had thought I was a woman, would you?' And he admitted he wouldn't."

"Lots of people are that way. If they must do business with a woman they'll do it, and think nothing about it. But they won't voluntarily seek a woman in preference to a man. Personally I would. I prefer a woman every time. I think women in business are more careful and conscientious and economical than men."

"I wonder will the time ever come when in such matters men and women will be absolutely on a par, and be judged entirely by results, when the question of sex will not enter into the matter of work?"

"I think it will," replied the other, optimistically. "The man of today is not far enough removed from the old order to see the new properly. But after man has been trained for several generations to know nothing but the new order, when he has no personal knowledge at all of what has been, woman will be accepted at the value she gives herself. The man of today simply can't get rid of his old-time notions about women. There has to be a new man as well as a new woman, before the scales will not dip on the side of man."

"I shall begin to train my boys to be new men," said the other spiritedly.

"That's one of the best ways to help the woman's movement," said the clubwoman.

### Birthdays

IF THIS IS YOUR BIRTHDAY

Avoid meddling, especially with things which you do not understand. Silently learn all you can before judging. You will gain some social advantage and will meet with some pecuniary loss or discomfort.

Those born today will early manifest independent natures, and should be trained in every way possible to make them really able to take care of themselves. If, when young, they are indulged on account of pretty demonstrations of affection, they will be doomed to slave for others when older.

# Feet Tired—So Tired?

**TIZ Makes Sick Feet Well No Matter What Ails Them.**

Send at Once for Free Trial Package.

TIZ acts at once and makes tired, aching, swollen feet remarkably fresh and sore proof. It's the sure remedy, you know, for everything that gets the matter with your feet. It's for sore feet and for sweaty, bad-smelling feet, and for corns, calluses and bunions, too. For years I have been troubled with sore and tender feet; suffered intense pains. Have had the assistance of physicians without relief. I bought a box of TIZ, which worked a perfect cure, as it has with a great many of my friends. I would not be without it.—A. F. Dreutzer, Chicago.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous excretions which bring on soreness of the feet, and is the only remedy that does. You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and calluses. There are two kinds of people in the world—those that get what they want, and those that get what someone else wants to give them. Be firm when you ask for TIZ, get it and laugh at the substitute. TIZ is for sale at all drug stores, department stores and general stores at 25 cents per box, or it will be sent you direct, if you wish. Money back if TIZ doesn't cure you. For a free trial package write today to Walter Luther Dodge & Co., Chicago, Ill.

# Ohioans Throw Off Yoke; Interests No Longer Rule

## GOVERNOR COX AND HIS WORK

Progressive Administration, Backed by Progressive Legislature, Secures Passage of Laws That Bring Back to the People Their Long Lost Heritage to Rule Themselves—More Fundamental Legislation Enacted in Twelve Weeks Than Was Ever Put Into the Statutes by Any Other General Assembly.

Ohio, once completely dominated by the interests, and later ruled by a greedy crew that stole interest earnings on deposits of state money, and also ran the government for its own emolument, has been freed. A predominance of the "interests" has been succeeded by a predominance of the people. An antiquated constitution and an ancient code of laws that were pliant tools to create special privileges for a few have been revised into as flexible instruments to make equal opportunities for all the people.

Last September a long step forward was taken by the adoption of the constitutional amendments; but the political, social and economic changes of greatest magnitude came when a progressive state administration, in 12 actual working weeks, gave legal effect to all those amendments and achieved the proud distinction of putting more fundamental legislation into the statutes than ever was enacted by any other general assembly in the history of the nation. Not a single bill was passed that will be a menace to any legitimate Ohio business interest or enterprise.

Last fall Governor Cox announced his pre-election pledges and promises were regarded as a promissory note given to the people. Today every obligation set forth in that note is paid. The personality of the governor was the motor power that propelled the different agencies engaged in the work of redemption and fulfillment of pledges and promises. Sincere co-operation was given by the Democratic majority in both houses of the general assembly; without it nothing could have been accomplished.

No Rumors of Graft.

Undoubtedly the most significant point about the record of the Eightieth General assembly is that, notwithstanding far more than the ordinary amount of bills affecting big business interests were introduced and the need for successful lobbyists was never more urgent, there was never a rumor during the session that reflected upon the honesty and integrity of a single member.

Not even a breath of suspicion existed against a single solon. It is the first time in many, many years that charges of graft and corruption have not been raised during a legislative session. A drastic anti-lobby law, enacted in the opening week of the session, was largely responsible.

Vast Political Changes.

Political reforms that were designed to make rule by the few far more difficult and rule by the people much easier include a statewide primary bill, under which easily controlled nominating conventions are abolished and the primary is substituted for the nominating of all public officials, except in townships and villages of less than 2,000 population. In these the desires of the electors as to method of nominating shall govern. In future elections, the progressive voters will be benefited by a provision which separates national and state issues by means of separate ballots for the two sets of candidates. A long array of presidential electors will no longer confuse the elector, and he may vote for the entire group on a party ticket by making a single cross. Hereafter the supreme judges will appoint their clerk, and the ballot was further shortened by taking the state dairy and food commissioner from the list of elective officers and placing his duties under the supervision of the state agricultural commission.

To permit everyone to participate, there will be half holidays on regular election days. Precautions have been taken to preserve the rights of candidates and to guard against fraud and corruption by measures that require the preservation of all ballots and pollbooks for 30 days. The corrupt practices act has been strengthened so as to guard against the buying of elections.

Home Rule for Cities.

As a result of the home rule amendment to the state constitution that was adopted last fall by the people, in which complete autonomy was granted municipalities, the general assembly enacted a law in which the commission, federal and general manager plans of city government were provided as models, and either of the three may be adopted by the people of any municipality at an election. The removal of public officials, judges and members of the general assembly was a weapon given to the people by the general assembly to be used in their fight against dereliction of duty and misconduct in office.

The predominating feature of the legislative accomplishments is a desire to serve humanity. An important departure is the law which gives the state board of administration the custody of all unfortunate children that

are committed to state institutions for the purpose of studying their needs in an observation cottage to be built in Columbus, and then to send the juveniles to the institution best equipped to give the needed treatment and care. Substantial foundations for that cheerful message of hope which the governor gave to the prisoners in the penitentiary on the first Sabbath of his administration have been built by several new laws. One provides for the transfer of the prisoners from the dirt and grime of the old penitentiary to a new institution to be built in the pure and wholesome atmosphere of the country. Provision was made for the employment of convict labor on the roads and in making road-building machinery, the men to receive a compensation. The earnings of the prisoners in excess of the cost of maintaining them on all classes of employment will go to the dependents of the men incarcerated to provide against want and hunger, and if there are no dependents, then the prisoners will receive the money when they leave the institution.

Indeterminate sentences, with the period of incarceration depending upon the conduct of the men, have been established to instill lessons of self-control, while day schools have been established to give the penitentiary prisoners better equipment for the battle of life when they leave. Contract labor has been abolished in jails and workhouses, as a concession to labor and to do justice to the men.

Compulsory Workmen's Compensation.

Senator William Green, former president of the United Mine Workers of Ohio and prominent in labor circles, has pronounced the compulsory workmen's compensation act "the greatest piece of humanitarian legislation ever put into the Ohio statutes," while other experts declare it is the most comprehensive act of the kind in existence. No longer will injured workmen or their dependents be forced to make tedious struggles through the courts for compensation. Instead adequate and prompt payments will come from the state compensation fund, while the employers will receive protection at a cost far below what they have been paying.

Mothers' Pension Law.

Closely allied with these humanitarian measures is the mothers' pension act, which assures succor and sustenance to needy mothers struggling to keep precious families at their own firesides. A maximum of \$15 a month is provided for the first child under 14 years of age, and a maximum of \$7 for each additional child. This measure will not increase the taxes, as it is simply a diversion into the channel indicated of a portion of the funds that have been given to the poor and needy. Experience in other states has demonstrated that mothers' pensions are both a practical and economical method of extending charity. The levy for this purpose is to be kept within the limitations of the Smith 1 per cent tax law.

To Benefit Labor.

The state industrial commission act was designed to eliminate jealousy and duplication of effort and to promote efficiency and economy in the different state labor departments. Under the consolidation of these departments provided for by law it is estimated there will be a saving of many thousands of dollars annually and the influence of labor's representatives in the state government will be increased many times. This commission will have jurisdiction of all matters concerning the relation of employer and employee. Wide powers are given this commission in the matter of fixing hours of employed women and children; the commission will gather data for a minimum wage law for women. Other measures especially desired by labor are those providing for an investigation of occupational diseases, the payment of salaries semi-monthly, placing a penalty on sweatshops, larger caboose on railroad trains, and an eight-hour work day on all public contracts.

Farmers' Interests Promoted.

The agricultural interests were especially well taken care of under the direction of Governor Cox, himself a successful farmer. An agricultural commission was established for the purpose of consolidating the seven different state departments engaged in promoting this science.

There were 11 triplications and 26 duplications in the activities of these departments as they had been independently operated, involving expenditures of \$275,000 annually, and the measure was designed to eliminate them. Under proper administration, there should be a saving of \$75,000 annually and better service, through the breaking up of jealousies and rivalries and instilling team work—something that has been lacking.

A special commission of Ohioans is now in Europe studying the farm credits system of that continent for the purpose of recommending a law that will make money easier for the farmer to get and reduce his rate of interest. In addition, brands of fertilizer are to be more rigidly inspected, additional safeguards have been set up against the importation of diseased live stock, orchard spraying law was strengthened and inspection of spraying material was provided for, security against the use of unsound stock for breeding purposes was given, this county farm experiment law was strengthened by giving the head of the Wooster Experiment Station au-

pervision of the establishing of such farms and the purchasing of equipment, manufacturers of lime are to be licensed and their products are to be inspected, the weak places in the food stuffs law were strengthened, protection desired by farmers for quail and skunks was granted and a pure seed bill was enacted.

Court Procedure Simplified.

For the convenience and protection of the people who go to court, there was effected a complete reorganization of the judiciary. The most troublesome part of the tiresome and expensive journey through the state courts—that from the circuit to the supreme court—was cut off in 90 per cent of the litigation, through a provision which gives the circuit court final jurisdiction in all suits except those involving the legality of laws. Another measure designed to prevent "hung" juries is that authorizing verdicts upon the agreement of three-fourths of the 12 jurors. Every county will have a common pleas judge, with the right to combine common pleas and probate courts in the interest of economy and to expedite action on disputed matters. Jury commissions are to be established in each county to keep unscrupulous persons off the panels.

Goodby to Mud Roads.

For the first time since the Ohio Federation of Good Road societies was organized, all the good roads measures advocated by that body were put in the state administration program by Governor Cox, and all were enacted into law by the general assembly. The most important provides for the raising of \$5,500,000 annually for 10 years for the purpose of eliminating mud holes and giving the commonwealth a complete system of improved intercounty and market roads that will be impervious to snow and rain.

Another measure requires the use of the split-log drag, and still another gives encouragement for the formation of local road improvement societies in each county to co-operate with the state in road building.

Utilities Law Strengthened.

Ohio has for some time had a public service commission, which exercised general supervision over the activities of all public utilities, including bond issues, rates, service, etc., but a new act greatly strengthens that law. To prevent delay and to secure speedy operation of all orders affecting rates, the new law contains a provision which forces all appellants to commence litigation in the court of final jurisdiction, and no injunction shall be issued by a judge staying the order of the public utilities commission unless an investigation of the merit of the order has been made. Such procedure is provided for on court appeals from the orders of practically all other state commissions. A valuation is to be made of utilities.

For Economy and Efficiency.

Bills were passed to give the state a modern budget system under which the governor will call biennially upon departmental heads for the submission to him of estimates of money needed. The state executive will have power to send into each institution and state department a technically equipped official for the purpose of verifying such estimates and investigating the necessity thereof. This officer also may make recommendations for changes in methods of administration for the promotion of economy and the production of efficiency. The governor will thus be able to scan all estimates carefully, weigh the needs of all departments and make the necessary recommendations to the general assembly. Heretofore each head of a state department has submitted his estimate directly to the general assembly, and the latter body, accepting these recommendations, appropriated from \$9,000,000 to \$10,000,000 annually. With all state officials asking for the maxima they believed the legislature would grant, the aggregate appropriations usually were more than strict economy required. There were three bills passed for this purpose. One changed the fiscal year ending from Nov. 15 to June 30; a second permits allowances by the state emergency board to be taken from the state treasury. Heretofore such money was borrowed from private banks at high rates of interest. The other measure creates the state budget commission, whose powers and duties are indicated above.

A Modern School Code.

A mandatory constitutional amendment adopted last fall makes necessary the complete reorganization and rehabilitation of the common school system of the state. Believing such should not be undertaken without an investigation, a commission was appointed to make a complete survey of conditions. This body will report to the special session of the general assembly next January, and when the new code of school laws is enacted it will contain the best features of the scientific codes of other states, and it is aimed to make it representative of the best thought of educators on the subject of administering the common schools.

A co-ordination of the energies of the state government and state university was provided for in acts that give the services of students in the engineering class at the state university to a state engineer entrusted with the task of valuing the property of utilities, while the activities of the college of agriculture have been placed under the supervision of the state agricultural commission. Experts in the faculty of the state university also are to assist in the drafting of proposed legislation, and needed assistance was given to the general assembly by the establishment of a legislative research bureau.

### The Human Procession

BY O. TERRANCE

Gabriel Fauré, known to music lovers as the world's greatest composer of the birth of Venus, will pass his sixty-ninth birthday today. The great composer recently took part in one of the most remarkable concerts ever given in Paris, being one of five masters who personally superintended the performances of their masterpieces. M. Fauré, of course, chose the Birth of Venus as his offering, while the venerable Saint-Saëns, who is ten years the senior of Fauré, directed the performance of his Phidias (Cléopâtre). Debussy, directed his Afternoon of a Faun. Darius Milhaud, the interpretation of his Sorcerer's Apprentice, and Vincent D'Indy conducted his Camp of Wallenstein.

M. Fauré was born on May 13, 1845, in the little city of Pamiers, France, and from his boyhood was devoted to music. He studied at the School of Sacred Music directed by Niedermeyer under Saint-Saëns and Diersch. For many years he was the organist of the famous church of the Madeleine.

William Butler Hornblower, who was appointed to the United States Supreme Court twenty years ago by President Cleveland, but who was not permitted to take a seat on the bench because of the opposition of New York, set to rest as sixty-two today. The distinguished New York barrister is the only member of what is perhaps the most distinguished walking club in the world and which includes former United States Major General John E. Parsons and Andrew Carnegie. The purpose of the club is to encourage the fine art of walking among the elderly men of New York. Mr. Hornblower and his colleagues have no difficulty whatever for any person less than a century old who prefers automobile carriage or rapid transit to perambulation. Mr. Hornblower is a native of Paterson, N. J., and is the son of a clergyman. For many years he has been one of the leaders of the American bar.

From the printer's case to the ownership of a great newspaper is the life record of Thomas Rees, publisher of the Illinois State Register of Springfield. Mr. Rees was born in Pittsburgh sixty-three years ago today, and at the age of three moved to Iowa with his parents. Beginning his journalistic career as a devil, he worked his way up until at twenty-six he was the proprietor of the Keokuk Constitution. In 1881 he went to the Illinois State capital to assume the publication of the State Register, one of the leading Democratic papers of Illinois. Mr. Rees has found time to travel about the world and is the author of Sixty Days in Europe and Spain's Lost Lewis Cuba and Mexico. He is an enthusiast on the subject of highway improvement and was the author of the law creating the Illinois Good Roads Commission.

The Rev. Percy Stuchey Grant who has become internationally famous for his sociological work among the inhabitants of the congested districts of New York, was born in Boston fifty-three years ago today. He entered the Episcopal ministry in 1886 and worked among the mill operatives of Fall River before becoming rector of the Church of the Ascension in New York twenty years ago.

**First Things**

\*\*\*\*\*

The first step toward the organization is a collective body of the Protestant Episcopal church in the United States, the American branch of the Church of England, was taken at a meeting held in New Brunswick, N. J., 129 years ago today. Clergymen were present from churches in New York, New Jersey and Pennsylvania, and a temporary organization was effected. The doctrines adopted were the Apostles and Nicene creeds, and the Thirty-nine Articles of the Church of England, with a few changes. Of late years there has been much agitation on the subject of a change in the name of the body, many leaders recommending the dropping of the word "Protestant" in the legal title of the church. This matter will be brought up at the general convention the governing body of the church, at its meeting next October. The Rev. Dr. William F. Manning is the leader in the movement which has for its object the elimination of "Protestant" from the name of the church, declaring that its use puts the church in the light of a modern denomination instead of in its true light as a part of the ancient, historic Catholic church. Others are as outspoken in their determination to retain "Protestant" as a part of the official title of the body.

### LUSTROUS HAIR SOFT—ABUNDANT

Unightly, Matted, Scraggy Hair Made Soft and Lustrous at Once—Parisian Sage.

If your hair is anything short of perfect, if it is too dry—brittle—dull—thin, or has been falling out, you can immediately bring about a change by using Parisian Sage. The first application removes dandruff and increases the beauty of the hair. A scientific study of the hair shows just what elements are needed to soften it, make it wavy and glossy, and make it grow—just like watering the plants in the garden.

Parisian Sage supplies hair needs. It is a tea-colored liquid, delicately perfumed, not sticky or greasy, that comes in a fifty-cent bottle at the drugists, and toilet counters. The "Girl with the Auburn Hair" on the package.

Apply Parisian Sage and the effect is immediate. One application stops the head from itching and freshens up the hair. Use it daily for a week and you will be surprised and delighted. Those who have tried it write us enthusiastic letters and tell all their friends about it.

Sold by Evans' Drug Store and dealers everywhere with a money-back protection to every purchaser if not satisfactory. Parisian Sage is one of the quickest acting hair tonics known.

### AMUSEMENTS

**Tonight at the Auditorium.**

Two splendid photoplays are on the program tonight at the Auditorium. The Cub is an exceptionally cleverly written newspaper story and is presented in a capable manner by the Imp Co. When Father Was Kidnapped, is a Nestor comedy full of good laughable situations.

**"The Last Roll Call" Tomorrow.**

This two reel offering to be seen at the Auditorium tomorrow tells a grim war story, which adheres closely to the actual conditions than the average film of this character. Sergeant Hale being denied the privilege of going to the bedside of his dying wife, deserts after a strenuous battle has been fought. He hides in the chimney of his home while a search is being made for him. When he comes down his wife is dead. Twenty years later he returns to find his daughter grown up and ready to marry. No one knows him but the old negro mammy, whom he swears to secrecy. At the last he dies in a roughing fit. A pathetic story with an unvarnished view of warfare as it was in the early days.

**MUST QUALIFY AS FAST SPRINTERS**

[Associated Press Telegram]

Wichita, Kansas, May 10.—Members of the Wichita police force must be able to run a hundred yards in one minute. This is a civil service regulation based upon the theory that offenders against the law usually are fast runners.

With the sidewalks lined with spectators five large men, who were candidates for policemen's stars, tried to qualify in a 100 yard dash on a principal street here last night. One man crossed the finish line in 14 seconds, two were one second slower and the others failed to finish in the prescribed time.

### PROFESSOR SIMP

### EXPLANATIONS WERE DUE FROM HATLESS ATTY.

When Attorney B. G. Smythe, the able counsel for the defense, was seen meandering out West Main street Monday noon, hatless, there might have been those persons unkind enough to presume Mr. Smythe had forgotten his hat. But not so. It was locked up in the office of the probate judge.

Mr. Smythe endeavored earnestly to recover the much needed cranial adornment, but thoughtless clerks in the probate court office had been so bent upon dinner that they seem to have forgotten that even the busiest of lawyers sometimes wear hats. Mr. Smythe, however, always equal to the occasion, wore another hat back to court, and was compelled to explain the hat story to every friend he met all afternoon. He said he never knew a hat could cause so much talk.

### SUFFERED TORMENT WITH ECZEMA

For Many Years, On Thigh, Also on Scalp, Awful Itching Skin, Could Not Sleep, Cuticura Soap and Ointment Completely Cured.

Lebanon, O.—"My eczema started on my thigh with a small pimple. It also came on my scalp. It began to itch and I began to scratch. For eighteen or twenty years I could not tell what I passed through with that awful itching. I would scratch until the blood would soak through my underwear and I could not talk to my friends on the street but I would be digging and punching the spot, until I was very much ashamed. The itching was so intense I could not sleep after once in bed and warm. I certainly suffered torment with that eczema for many years."

"I chased after everything I ever heard of to all to no avail. I saw the advertisement for Cuticura Soap and Ointment and sent for a sample. Imagine my delight when I applied the first dose to that awful itching fire on my leg and scalp in less than a minute the itching on both places ceased. I got some more Cuticura Soap and Ointment. After the second day I never had another itching spell and Cuticura Soap and Ointment completely cured me. I was troubled with awful dandruff all over my scalp. The Cuticura Soap has cured that trouble." (Signed) L. R. Flunk, Jan. 22, 1918.

# UNITED DOCTORS GENEROUS OFFER

**FREE CONSULTATION, EXAMINATION AND ALL TREATMENT TO THOSE STARTING TREATMENT BEFORE MAY 20.**

**CHANCE FOR BIG SAVING.**

Present Patients To Receive Substantial Reduction—Anniversary Month.

The anniversary of the first Eastern United Doctors institute is this month. During this time thousands and thousands of sick people through out the East and Ohio have obtained relief and cured with the wonderful new system of medicine as practiced by the United Doctors.

In time past the United Doctors have made the following offer on anniversary month in their different institutes and hence it now includes Newark, Ohio.

The offer is that consultation, examination and all treatment will be given free (except for bare cost of medicines and their distribution) to all new patients accepted for treatment before May 20th. This does not simply mean that the new patients are to obtain free treatment only for this short time, but if they start treatment before May 20th they will be treated on the same condition until they are well regardless of time. All the present patients of the United Doctors are to obtain either a direct reduction in future treatments or additional free treatment.

The fact that this offer was to be made has in some unaccountable way already reached many people of this section who knew the United Doctors custom, having been in their other institutes, and the rumor has been causing much comment and wonder. The United Doctors reason for the offer however will be of deep interest to all sick and ailing people and incidentally show again why the United Doctors have won the confidence and esteem of every community in which they have institutes. It is often these acts of generosity that makes things brighter for others, that show at least that the United Doctors appreciate the wonderful patronage bestowed upon them from the opening day of their institute here.

The United Doctors system of medicine is different from all others. They have "United" the separate methods of medicine, viz: the Allopathic, Homeopathic and Eclectic and made one system of treatment from these whereas the ordinary doctor is a student of only one of the above systems and practices only one of these systems. The result is the prevention of innumerable operations, for a person can often be cured by one system of medicine readily with medicines—whereas with another the cure might require surgery. The United Doctors never use the knife or oper-

## A JURY OF PHYSICIANS

Doubtless many who have read our announcements have said: "They were not genuine cases of Bright's Disease." Then how about cases like this?

R. C. Pell, corner of Broadway and Battery streets, is the manager of one of San Francisco's big corporations. He had a son who had Bright's Disease. He was greatly swollen with dropsy and a United States Army surgeon was called in. He reported the case Bright's and incurable. Although Pell had great confidence in the physician he called in another. After careful examination he corroborated the Army surgeon's report. He told him that it could not raise the lad.

His therapist put the patient on Fulton's Renal Compound. He began to mend and in six months was well; but the father could hardly credit it. He took a sample to a third physician. He reported it normal. To be absolutely certain he called in a fourth physician for a last analysis. He also reported it normal.

As to the permanence of the results obtained in this case, this was eight years ago and the patient, now a young man, is in business in San Francisco.

There is no escape whatever from the fact that Bright's Disease is being cured by Fulton's Renal Compound. If you have Bright's Disease you owe it to yourself and family to try Fulton's Renal Compound before giving up. You can get it at F. D. Hall, druggist.

For pamphlet on our investigation into the curability of Bright's Disease write John J. Fulton Co., San Francisco.

## Do You Envy Others Their Health?

Every man or woman whose blood is watery and impure shows it by the languid step and listless out, used-up air of the sick person. It is impossible for the bloodless person to be well, active and strong. When the blood is bad the body is weak and helpless against disease. The stomach is deprived of its source of strength and gets out of order. It can no longer properly nourish the body. The liver becomes sluggish, the brain dull and the complexion pale and sallow. Thin, impure blood is therefore a standing invitation to sickness. It is an open door that the grip, malaria, neuralgia, sciatica, rheumatism and nervous troubles find easy to enter and prostrate the defenseless body.

Dr. Williams' Pink Pills for Pale People will build up and purify the blood until it becomes a healthy, vigorous stream. No part of the body can escape their beneficial influence. Their effect is general and soon the appetite picks up, the digestion becomes good, the eyes brighten, the liver becomes active and the skin takes on a healthful tint.

## FEDERATION OF CITY CHURCH BROTHERHOODS

**OBJECT TO PROMOTE GENERAL WELFARE AND ADVANCEMENT OF CITY.**

Committee of Five Appointed to Nominate Officers—Next Meeting Will be Held June 9th.

Over thirty delegates from thirteen Brotherhoods of the Churches of Newark were guests of the Brotherhood of the First Presbyterian church Monday night where they partook of some inviting refreshments served by the ladies of the church and organized the Federation of Church Brotherhoods.

The churches represented by delegates were the three Methodists, the three Presbyterian, two United Brethren, First Congregational, Central Church of Christ, Plymouth Congregational and North Christian Union church.

The object of the Federation is stated to be to promote the general welfare, the public good and the moral advancement of the community. It is expected that other churches will join in the movement later.

A temporary organization was perfected by the election of Attorney Andrew S. Mitchell as temporary chairman and A. Ray Evans temporary secretary.

After some extended discussion the name of the organization was determined to be the "Federation of Church Brotherhoods" of the City of Newark, Ohio.

The chairman appointed a committee of five consisting of N. C. Sherburn, A. C. Herrod, A. Ray Evans, T. M. Edmiston and R. V. Boyd to nominate officers for the Federation and report at the next meeting.

A committee was appointed by the chairman to prepare a constitution and by-laws and report at the next meeting. The committee consisted of A. Nelson Dodd, G. G. Winter, Robert Northey, William Richards, H. J. Burcher, Charles Gunion, Grove Montgomery, E. S. Randolph, C. G. Hill, E. B. Pratt C. L. Riley C. G. Nevin and Edward Kibler.

The Federation adjourned to meet on the 9th of June as guests of the Brotherhood of the First Methodist church at 7:30 o'clock p. m.

## PARTY ENJOYED A DELIGHTFUL VISIT IN OLD VIRGINIA

Mrs. G. C. Scheffler of North Buena Vista street, returned home Saturday morning after a two weeks' visit with her son at Pt. Norfolk, Va., and grandson, Charles C. Scheffler of Washington, D. C. She was accompanied on the trip by L. A. Scheffler and wife of Cambridge, O., at whose home she visited en route. A very enjoyable time was had in seeing places of interest in Washington, after which the journey was continued down the Potomac by the steamer Newport News to Pt. Norfolk. While there the party visited the old Jamestown exposition grounds Virginia Beach, Cape Henry, Newport News and Old Point Comfort. Fishing in the Elizabeth river was one of the pastimes, and several good sized "croakers" were landed, and one toadfish which usually causes much merriment as they are not edible and are regarded by the colored people as hoodoos. That part of the Sunny South is now a veritable land of roses, with strawberries and vegetables in plenty and figs growing in almost every yard. They will not be ripe for about a month but there will be another crop later in the summer on the same trees.

## Health and Beauty Advice

BY MRS. MA E MARTIN.

Annette (1). Sometimes a druggist can advise to discourage the making of home-remedies because he thinks it interferes with his business. I never suggest the use of anything that is not sold in first-class drug stores. (2) To make ketchup, take 1 ounce of ketchup, mix it with 1-2 cupful of sugar and 1-2 pint of hot water. This formula makes a full quart of tonic, of which you should take 1 tablespoonful 7 minutes before each meal and before retiring. As an all-around tonic this has no superior. It will restore your lost appetite and tend to strengthen and build you up. It purifies blood and your pimples and ugly blotches will soon disappear.

Virginia. A good "liquid-powder" or face-wash which when on seems a part of the skin is made by dissolving 4 ounces of alumina in 1-2 pint of hot water or witch hazel and adding 2 teaspoonfuls of glycerine. This home-made complexion-beautifier whitens the skin without the use of powder and is particularly recommended for the use of anyone who has a sallow, dark or oily skin.

Constance. To remove dandruff and stop falling hair, apply once a week a quinine hair-tonic, made by dissolving 1 ounce of quinine in 1-2 pint of alcohol, adding 1-2 pint of cold water. Rub into the scalp and hair with the finger tips until absorbed. This treatment will promote the growth of hair and tend to make it lustrant and glossy. (See answer to Molly.)

Molly. It is not necessary to shampoo the hair oftener than twice a month if you use a shampoo that will thoroughly cleanse the hair and scalp. An inexpensive shampoo that makes the hair feel good and helps the hair grow is made by dissolving a teaspoonful of cantharid in a cupful of hot water. Pour on the hair and rub well. You will find that this makes a "good hair" and plenty of it—thoroughly cleanses the hair and scalp and relieves irritation and stimulates roots to helpful action.

Viola. Yes, healthy eyes are clear and sparkling. If yours are dull and inflamed you need an eye-tonic. Get an ounce of castor oil from your druggist and dissolve it in a pint of water. One or two drops in each eye every day is all that is required. This eye-tonic will not smart or burn and will give relief when the eyes are tired, inflamed or sore. It strengthens the nerves and will benefit you if you wear glasses.

Laura. Your friend is right in saying that I know a certain wrinkle-remover which can be made at home at very little expense. It is a vegetable product and is unlike creams containing oils or animal fat as it neither greases hair nor makes the flesh loose and flabby. Just dissolve an ounce of almon, which you can get from any druggist, in one-half pint of cold water and add 2 teaspoonfuls of glycerine. Stir and let stand for one day. To remove wrinkles apply a thick coat of the cream-jelly and leave on overnight. This protects the skin and allows all the blood action to be used in constructing new texture. Then wash thoroughly with more of the cream. It makes the skin soft and velvety, while it is unequalled in reducing large pores.

Student. It will be good news to you to learn that what you eat is now thought to have little to do with obesity and that if enough exercise is taken, even a fleshy woman may eat what she wants. To half starve oneself means to look haggard and altogether unlovely. Don't drink while eating, even water and don't drink alcoholic beverages at any time. The best flesh reducer I know of is parnosin. Get from your druggist an original 1-ounce package of parnosin, take it home and dissolve it in 1-2 pints of water. Take one tablespoonful 3 times a day, before meals.

O. T. Your eyelashes will grow long and have a pretty curl if you apply parnosin at last-tooths with thumb and forefinger. Thin eyebrows can be made to come in thick and glossy by putting parnosin on them frequently with the finger. You can buy parnosin in a small, original package, but be careful and don't get any where hair is not wanted.

Olga N. The disgusting half growth can be permanently banished by using a delicate paste. Get a small, original package of delicate and mix enough of the powder with water to cover the objectionable hairs. Let remain 1 or 2 minutes, then remove and wash the skin. This simple treatment dissolves the hairs and leaves the skin free from blemish.

## FINE LIBRARY FOR READING PUBLIC OF MARTINSBURG

Open Every Wednesday and Saturday Evenings With New Librarian in Charge—Dan Cupid Busy.

Martinsburg, May 13.—This village and community are justly proud of the public library and reading room which has been appreciated by the reading public for three years. Mrs. Jamison has been the efficient librarian since its founding, but resigned recently and Fred J. Freese has been appointed to fill the vacancy by the board of directors. The library will be open Wednesday and Saturday evening during the summer.

Mr. Fred Shrontz of this place and Miss Sallie Harris of Howard were married in Centerville Tuesday by Rev. L. G. Walker. They will go to housekeeping soon in the groom's new residence on Zanesville road.

Rev. and Mrs. Jamison have sold their property to Frank Wanderling and will move to Canton this week.

Mr. Oliver Ewart of New York City is the guest of Mrs. Laura Ewart. He has presented his niece, Mrs. Carl Vanvoorhis, with a new Ford two-passenger car.

Miss Jennie Bowman, entertainer gave an interesting program in the Town Hall Saturday evening for the benefit of the public library.

Mr. and Mrs. Jeffers. Behout moved to Mt. Vernon Wednesday.

where they purchased property recently.

Mrs. Kittle Cox of Mt. Vernon called on Mrs. Margaret S. Freese Wednesday.

Mr. Jay Mitchell of Salem, Neb., is the guest of his parents, Mr. and Mrs. Vergil Mitchell.

Misses Elizabeth and Anna Behout have moved into the Harry Dudgeon property, west of town.

Mr. Elmer Harrison was called to Cincinnati Monday to attend the funeral of his brother, William Harrison, who died of tuberculosis. He was accompanied by Dr. J. F. Shrontz, William Shrontz and W. I. Cline, brother-in-laws of the deceased.

## PUTS AN END TO BACKACHE QUICKLY CURES WEAK KIDNEYS

A Few Doses Give Relief, Helps Lifeless Organs Regain Health, Strength and Activity.

It is useless, dangerous and unnecessary to be tortured with the digging, twisting, pains of backache, and rheumatism, or suffer with disagreeable kidney and bladder disorders any longer.

The new discovery, Croxone, provides a remedy which every sufferer can now depend upon to promptly and surely relieve all such misery and bring about a speedy cure.

Croxone cures these troubles because it quickly overcomes the very cause of the disease. It soaks right into the stopped up, inactive kidneys, through the membranes and linings, cleans out the little filtering glands, neutralizes and dissolves the poisonous uric acid and makes the kidneys filter and sift from the blood all the waste and poisonous matter that clog the system and cause such troubles.

It does not matter whether you have but slight symptoms or the most chronic, aggravated case of kidney, bladder trouble, or rheumatism that it is possible to imagine, for the very principle of Croxone is such that it is practically impossible to take it into the human system without results.

You will find it different from all other remedies. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it, and all the misery and suffering that go with such troubles end.

You can secure an original package of Croxone from any first class druggist. All druggists are authorized to personally return the purchase price if it fails to give the desired results the very first time you use it.

**DO YOU KNOW OUR SUMMER DRESSES FOR LADIES, MISSES AND CHILDREN ARE NOW ALL ON SALE**  
If a stock of goods with its constant coming in and going out is ever complete—it is complete now—The largest variety of Ladies White Dresses and dresses with color that we have ever shown is now on display—From \$5.00 to \$25.00 you can find dresses for all the different occasions.

### From \$10.00 to \$20.00 Ladies Dresses

In fine voiles in both white and colors—the white dresses this year are combined with colors for sleeves, yokes and flowers on the skirts, making a very novel effect in trimming.

Cluny trimmed dresses, Natural Cossack, White Austrian Linen with hand trimmings on sleeve and collars, and a beautiful line of embroidered dresses.

### Dresses for Misses, Juniors and Children

In all sizes from 2 to 20—dresses for school, evening and social occasions of all kinds. The prices are popular ranging from \$1.50 to \$7.00 each, and the styles are designed by designers who make a specialty of children's dresses and consequently the styles are more pleasing because made by houses who make nothing but children's dresses.

The prices are very popular, 50c to \$1.00 a pair for the long ones. The quality is the best, the finger tips are double. They cost no more than an ordinary kind and the quality is undoubtedly better.

The silk gloves in white and black are big items for summer wear and you will need new ones—ask for THE KAYSER GLOVES.

### Summer Floor Coverings Straw Mattings 25c Yard

Are a big summer item—already the demand has opened and our fine Japanese designs in the imported figures on white grounds and the floral and woven designs in colors are cutting rapidly. Hundreds of rolls of these fine warped Japanese Mattings are here. They are the prettiest of summer floor covering. They can be washed off. They are a cotton warp which causes them to lay close to the floor. They are cool and sanitary and very inexpensive. In colors and plain white only 25c a yard.

### Wilton Rugs \$32.50 Each

The very name spells elegance and style—the shadings are richer and the designs are more harmonious because they are woven of worsted—worsted wears better and longer. We are showing this week some beautiful Wilton Rugs at \$32.50 in a big range of colors—woven—Mosaic patterns. They are beautiful, well covered and woven in closely printed patterns. Come in and see them \$32.50 each.

### If You Have Cleaned House Buy a Duntley Cleaner

and keep it clean—You can run this vacuum cleaner over it yourself at any time. It runs just like a carpet sweeper, but it has both a brush and a suction. The brush picks up the threads, lint, etc., and the suction draws the dust and dirt into the bag. No other sweeper does this. In this way you do not scatter any dust in the house, you gather it up and dump it outside—2 sizes. Only \$9.00 and \$10 each.

### See Our Round Polishing Mops

Complete with handle \$1.25 each. Made round and padded to protect furniture. They give new life to hard wood floors and varnished woodwork and gather up all the dust gathered on the wood work. They can be washed after long using and by putting on a few drops of oil are as good as new.

## CAMPAIGN FOR NEW MEMBERS BEING MADE

The women of the Modern Maccabees are very busy in a campaign for new members to close May 21, when the great commander, Frances E. Burris of St. Louis, Mich., will be here to put on the work with about \$500 worth of prizes. Several ladies from Columbus will also be here to assist. Deputy Great Commander, Blanche Anspach of Toledo has been in the city several weeks working up the class and assisting the local ladies in several entertainments, to raise money for the work and establish them in their new lodge rooms in the B. of R. T. hall on Third street.

An ice cream social and dance will be given at Bismark Hall Thursday evening, May 13.

Deputy Great Commander Lida Marshman of Dayton, who came to Newark with Miss Anspach, previous to the flood disaster, and who lost her home and all her possessions at that time, returned to Newark Monday and will assist in closing up the work. Both ladies are rooming with one of the local members, Mrs. Wm. Weiss at 25 West Church street.

## BAXTER

(Continued from page 1.)

prosecutor said, that as banking superintendent Mr. Baxter had taken over the assets of the Columbus Savings and Trust company when the institution was closed by his order on February 12, 1911, and that he had temporarily used \$37,000 of the bank's money in meeting a pressing New York obligation.

On May 22, 1912, the prosecutor declared Mr. Baxter had a note for \$37,000 fall due, and after repeated attempts to borrow the money from local banks under his supervision, he had failed. The note had been given by him six months before to the John W. Gates estate, was secured by 325 shares of the Texas Oil company, in which the Baxters were extensively interested and was payable at the office of the Banker's Trust company of New York.

The prosecutor declared that Mr. Baxter in canvassing a local loan received a final turn down from a Columbus bank on Sunday, May 19 and that on the day following he telephoned from Lima to Daniel H. Sowers, to withdraw \$37,000 from the trust company's assets and convert them into New York drafts payable to the Banker's Trust company.

Mr. Sowers had been previously appointed by Mr. Baxter as liquidating agent of the defunct bank, and was in charge of the funds. These he had placed on deposit in the Citizens' Trust and Savings bank and in the State Savings Bank and Trust company. In directing that the \$37,000 be withdrawn Mr. Baxter had stipulated that \$20,000 be drawn from the former and \$17,000 from the latter bank.

Mr. Baxter received these drafts from Mr. Sowers on his return from Lima, Monday afternoon, the prosecutor continued, and mailed them to the Gates estate. The prosecutor introduced a copy of a letter written on May 26, 1912, with which these drafts were mailed. It was on the stationery of the Samuel A. Baxter Sons, private bankers, purporting to be signed by Mr. Baxter. The bank returned the oil stock held as collateral.

The prosecutor further charged that a week later when Mr. Baxter first saw Mr. Sowers he did not mention the incident, but that a few days later he told the liquidating agent that he would put up the collateral to protect him. Sowers refused to accept it, so Mr. Baxter negotiated a loan of \$42,000 from the Ohio National bank, on the security, and replaced the money in the two banks. This was on June 6, 1912, less than three weeks after the money was taken. The testimony will show that Mr. Baxter paid three per cent. for it, the prosecutor said.

As it stands, the case, if it goes to trial, will be in the hands of a juror's jury. Judge Kinkaid laid the case over until tomorrow, when he will rule upon the motion made by the attorneys for the defense.

The state was represented by Prosecuting Attorney Turner, Assistant Prosecutor Ballard and Attorney General Timothy S. Hogan. Mr. Baxter appeared in court accompanied by his brother, Clem Baxter and by his counsel, Attorneys Kent Hughes of Lima, former assistant attorney general, W. H. Miller and Charles J. Prezman of Columbus.

with the patient dead than alive. Later the patient died.

A lively clash took place when the hearing was resumed in the afternoon, between Con Mattern, Koch's attorney, and Chairman Shepherd of the board. Mattern wanted to call to the stand a woman to whom Dr. Baber is alleged to have made improper remarks, but both Chairman Shepherd and Member Davey of the board objected on the ground that Dr. Koch did not know about this testimony at first hand. The argument waxed warmly, Mattern arguing that he did not see what difference it made how the testimony was introduced, just so they got it. During the tilt the name of the woman implicated in the charges was revealed as that of a stenographer at the institution. Dr. Koch was finally placed on the

stand and testified that a certain woman employee, whose name was not brought out on the stand, had told two other physicians at the institution that Dr. Baber had, during December, 1911, called her into his apartment and made improper remarks to her.

[Associated Press Telegram] Columbus, O., May 13.—While the members of the state board of administration were at Dayton today, investigating the charges against Dr. E. A. Baber, superintendent of the state hospital in that city, a storm was brewing at the state hospital in Athens, and it may be necessary for an investigation there when the board has finished its work at Dayton.

Three attendants have been discharged there within the past few days by Dr. O. O. Fordyce, the superintendent, and two of them have been arrested on the charge of cruelty to patients. Milton Hovey, a former Columbus man, has also been dismissed and make charges of

## Skin Sufferers—Read!

We want all skin sufferers who have suffered for many years the tortures of disease and who have sought medical aid in vain, to read this.

We, as old established druggists of this community, wish to recommend to you a product that has given many relief and may mean the end of your agony. The product is a mild, simple wash, not a patent medicine concocted of various worthless drugs, but a scientific compound made of well known antiseptic ingredients. It is made in the D.D.D. Laboratories of Chicago and is called the D.D.D. Prescription for Eczema.

This is a doctor's special prescription—one that has effected many wonderful cures.

The effect of D. D. D. is to soothe instantly, as soon as applied; then it penetrates the pores, destroys and throws off all disease germs and leaves the skin clean and healthy.

We are so confident of the marvelous power of D. D. D. that we have taken advantage of the manufacturers' guarantee, to offer you a full-size bottle on trial. You are to judge the merits of the remedy in your own particular case. If it doesn't help you, it costs you nothing.

D. D. D. Soap is made of the same healing ingredients. Ask us about it.

extreme cruelty to the patients of the Athens hospital.

Ernest Nichols and C. W. Stansbury, were arrested on the charge of cruelty. The latter pleaded not guilty and is now at liberty under a \$300 bond, while the former was found guilty and assessed a fine of \$25 and costs, which he paid.

Hovey makes the charges against Stansbury, who, he claims, made brutal attacks on Smith Bell and another patient who is registered at the hospital under the name of John Doe.

It is understood that some of the members of the board of administration will look into the situation at Athens.
